

6. Revise A010.4.3 and 4.5 to mandate the use of a ZIP Code or ZIP+4 code in the return address on certain mail. (The standard for required use of a return address was not changed by these proposals.)

7. Add A010.5.3 to clarify the meaning and appropriate use of the terms "post office box," "P.O. Box," "PO Box," "POB," "P.O.B.," and similar combinations.

8. Change A010.5.1 to prohibit dual addresses in both the delivery and return addresses on Express Mail and Priority Mail; on registered, certified, restricted delivery, and special delivery mail; and on any mail claimed at a bulk or presort rate.

Miscellaneous organizational and technical revisions were also proposed for clarity and consistency as well.

Over the total comment period, the Postal Service received 53 written responses from printers, mailer associations, publishers, a consultant, and other customers, all offering hundreds of individual comments on the several aspects of the proposed rule. Of the total responses, 47 opposed all or part of the proposed rule, and 6 mixed support for some aspects of the proposal with opposition to others. The public meeting was attended by 48 industry representatives, of whom 20 offered oral comments for the record. In addition, 22 representatives submitted written comments, including 13 of those who gave oral comments. Neither the oral nor the written comments raised issues not already exposed in the written comments described earlier.

The Postal Service concluded that, despite the merit of some elements of the proposed rule, the broad, general opposition expressed by commenters to the proposal argued strongly for its reconsideration. Moreover, the advent of classification reform was an opportunity, seen both by the Postal Service and the commenters, to enact more fundamental changes and thus render moot some issues in the proposed rule.

Therefore, in view of the comments received and the events that have occurred since the proposed rule was published, the Postal Service has determined to withdraw its proposal at this time. The Postal Service does so, however, with the caveat that elements of the proposed rule are likely to be republished at a later date for comment, separately or in combination, as part of

classification reform rulemaking or otherwise.

Approval and Promulgation of Implementation Plans; State of Kansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve a State Implementation Plan (SIP) revision submitted by the state of Kansas. The revision includes the creation of a class II operating permit program and revisions and additions to existing SIP rules. The approval of the class II permitting program authorizes Kansas to issue Federally enforceable state operating permits addressing both criteria pollutants (regulated under section 110 of the Clean Air Act) and hazardous air pollutants (regulated under section 112 of the Act). In the final rules section of the **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed rule must be received in writing by August 16, 1995.

ADDRESSES: Comments may be mailed to Wayne A. Kaiser, Environmental Protection Agency, Air Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.
